

Instruction for observation

Dear customer,

here you get some advices for our small ring with great effect. Please follow our installation manual in the back and observe a positive change in the water in the next few weeks.

We are looking forward to your feedback!

Your Merus Team

Where can you see the effect?

After installing the Merus Ring you will notice changes where lime and rust had previously disturbed.

- ✓ Less cleaning effort on shower and fittings
- ✓ Easy maintenance of the stainless steel sink
- ✓ Less or softer deposits in the kettle
- ✓ Coffee machine must be descaled less often
- ✓ After a longer standing time, the water flows clear again more quickly
- ✓ Reduced water pressure increases again

Tips and tricks for support

Wherever water evaporates, lime remains and hardens in combination with air. This must be avoided.

- Always leave some water in the kettle.
- Rinse shower walls and tiles with cold water immediately after use.

In case of overgrown pipes and brown water, the water will flow clear again faster if you

- Regularly unscrew and rinse the aerators in the water tap.
- Turn the water completely on for a while once or twice a week at the affected taps.
